Protest the Effort To Seize Lands

Sensational testimony to the effect that men holding some of the highest positions in the United States Government exercise their official power to oust Indians from their fertile reservations and compel them to take smaller tracts in desert territories, is expected to develop at the hearing now being conducted by the committee investigating the expenditures in the Interior De-

Five full-blooded Indians are Washington and appearing before the committee to explain the steps taken by the Government to deprive their tribe of its 25,000 acres of rich land at Camp McDowell, Arizona, and move them over into the Salt river desert, wher it is proposed to give them 850 acres of land irrigated by water from the Roosevelt dam supply. They claim that the swet water in the Verde river that supplied their reservation has been diverted to form a part of the supply for the desert to which the Government now proposes to move them. The Government proposes to give each Indian five acres of irrigated land, and segregate them. Of this plan Di. Carlos Montezuma, a full-blooded Apache, said.

Montezuma, a full-blooded Apache, said:

"Apportion the land off to the Indians. Let each Indian have his own tract, to do as he likes with it. The trouble with the Government is that it has made a helpless being of the Indian. You can't expect the Indian to advance if you give him no opportunity."

ity."
Dr. Montezuma told the committee to give the Indian his land and abandoned the Indian office, which costs the Government from \$5,000,000 to \$12,000,000 a year to maintain.

Other Indians who are before the committee are Yuma Frank, Charles Dickens, and Thomas Serrama. They are from the Camp McDowell reservation

IS NOT APPROVED BY COMMISSIONERS

AT HIGHER PRICES Are of Opinion That Maine Ought to Stay South of Mall.

> Maine avenue ought to stay on the south side of the Mall, the District Commissioners think. They are opposed to moving Maine avenue over to the Union Station plaza.

They expressed their thought on the subject today in a letter to Senator Gallinger, chairman of the Senate Committee on the District of Columbia, on the Guernsey bill, which provided for the changes named.

The epople of Maine think that one of the Thirteen Original ought to have a longer and more prominent namesake than Maine avenue, which is on the southerly side of the Mall, between Third and Sixth streets southwest. It was proposed, therefore, that the avenue to be made from the corner of First street and Pennsylvania avenue northwest should be Maine avenue, while the present inconspicuous avenue should have the pronoun of Mall.

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-kets. First deed of trust notes (first mort-gages), well secured on real estate in the District of Columbia, constitute "gilt edge" investments. They do not depend upon the financial responsibility of individuals or cor-porations for their stability and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet. "Concerning Lones and investments."
